WHAT OUR CLIENTS HAVE TO SAY

RUAN REDELINGHUYS

Photographer

www.ruanredelinguys.com

I honestly wish I knew about and have made use of Nanuja Albums earlier in my career! The quality of craftsmanship is outstanding, the colour perfect and the delivery always within deadline. This is all great but the most important part of working with KJ and his team is the communication and follow-up throughout the order and print process. If there are any questions or problems I am immediately contacted to ensure that the correct files and colours are printed. I've had couples who came back to order albums almost a year after their wedding when they see the quality samples shown on social media and from other couples who have ordered the Nanuja range of albums.

There are many reasons why I use Nanuja Handcrafted Albums and Photobooks. There are lots of companies out there offering albums and sometimes at a cheaper price, but KJ and his team give me a personalised service and look after me so well, that in the end my clients benefit and my workflow is simplified, which means I have more time to do the things I want to do! They have a genuine interest in helping photographers.

I have now been running my photography business for 10 years and I discovered Nanuja two years into my business and made the transition. I have never looked back the personal service from two of the kindest individuals I know cements both your relationship with this company which is then backed up by the most incredible product. I have had my door knocked on by competitors and no one's convinced me yet that they can compare or even match Nanuja in service and quality. Great service from a great team what more can you want for your business.

Nanuja Photobook

This just arrived ... Thank you Nanuja Handcrafted Albums & Photobooks for creating this little family album for our little Bella Sky. A lot better then having these pics sitting on my harddrive !! #memoriesaremadeofthese #specialyear #bedtimestoriesherewecome.

Classic Nanuja Album:

I can't believe that it's almost time to celebrate my first wedding anniversary to the man of my dreams! This time last year, we were in Thailand getting ready to jet to Cambodia for our wedding.

And because it was the most special day in Stafford and my life, I'm so grateful I have my beautiful Nanuja Handcrafted Albums & Photobooks as a keepsake of memories ♥

Using a unique panoramic bookbinding technique learnt in South Korea, and crafted with genuine leather, this beautiful album has our initials on the cover and plays our wedding song when we flip through the pages.

Nanuja Custom Design Service

Pat Goss

Owner of Umngazi River Bungalows

Good Morning Natasha and KJ, from our camp down at Mkweni about which you produced a real "historical masterpiece" from our families point of view.

We can't thank you enough for the trouble you went to in creating this gem of a record of the recent history of Mkweni. Your creative skills and attention to detail are strongly in evidence as one peruses the contents of the album.

Moreover, you managed to complete the assignment in perfect time as we prepared to journey down for the season. Thank you, thank You!!

With our very best wishes for Xmas and New Year, Pat, Karin and Jenny.

Amateur photographer

Reliving memories through Nanuja Photobooks. I may never get to return to some of the most exotic places I have been in this lifetime; I may never see some of the incredible phenomena I have seen and I may never experience such unbelievable marvels again, but through creating photobooks with Nanuja's easy software, I am reliving each and every moment. A truly wonderful experience both making the books and seeing the finished coffee table end product.

Thanks KJ and co.

Tina Cartwright

Thank you for providing such an informative, entertaining morning. The software was easy to download and is extremely user friendly. You managed to turn something that I had imagined to be complicated and difficult into a simple, really enjoyable project. I'm hooked!

Rob Campbell

We have had 14 Photobooks done by Nanuja and been very pleased with both the quality of the product and the friendly helpful service offered. Nanuja's paper quality is superb. We love reliving our memories by browsing through our photobooks, which are conveniently close to hand.

Jacquiline Werrner

What a professional, fun and interactive workshop! I am so chuffed I made the effort to attend – It was time well spent. I so look forward to receiving my first “handmade” photobook... Thank you Natasha for your time, knowledge and guidance throughout the workshop... If making your own photo books is on your to do list or wish list, I definitely recommend blocking time out to do this workshop...
